RING SIZING GUIDE

NOTES

Please read these instructions carefully to ensure that your measurements are accurate when you print this page:

CONFIRM PRINTED PAPER SIZE

1. Before printing, ensure that page scaling is set to "none" on your print dialog box.
2. Measure the rule opposite and check that this is exactly 50mm (2 inches) long.
3. If the measurement is not accurate, check that you are printing at full size and reprint.

1. Select an existing ring that fits the finger. Engagement and wedding rings are traditionally worn on the "ring" finger on the left-hand.
2. Place the ring over the circles below until you find one that matches to the inside of the ring.
3. If the ring falls between two sizes, we would advise using the larger measurement.
4. Alternately, you may want to use a tape measure to measure around the finger, and match this to the inner circumference measurement supplied.

Ring finger
